## Description

Manfred Herden Real Estate Mallorca is selling a beautiful, well-located and reasonably priced plot of land measuring approximately 10,000 square metres in Son Servera with sea views of Cala Millor, Cala Bona and Costa de los Pinos.

There are two plots, parcel 5 and 6, one measuring 5,128 square metres and the other 5,223 square metres.

It is not advertised as building land because the laws of the respective island government change frequently. Now, building permits are reportedly only to be granted for plots larger than 14,000 square metres. At this price, we are only selling the land. You will have to enquire about the rest yourself at the building authority in Manacor. Some of the neighbouring plots are also built on. Perhaps from an earlier time when a different government was in power.

A really beautiful, quiet plot with sea views at an exceptionally affordable price.
